

## Latitude 3460 Mobile Thin Client

### Secure performance with portability

The Latitude 3460 mobile thin client is designed to securely deliver virtual desktops to mobile users. It incorporates Intel's dual-core processor with integrated graphics for a rich multimedia experience. This mobile thin client delivers great value with a 14" Full HD anti-glare display and robust connectivity with plenty of ports. With a sleek, portable design, this mobile thin client is easy to carry and lets you work on-the-go.

### Flexibility with reliability

The Latitude 3460 mobile thin client has all the thin client features you expect on a mobile thin client. It supports a wide variety of virtual desktop brokers including Citrix XenDesktop and VMware Horizon and can connect to a broad range of

peripherals and desktop / application virtualization environments using a fast, rich and familiar Windows 7 user experience.

### Easy to Manage

The Latitude 3460 mobile thin client is highly manageable through Wyse Device Manager(WDM), Wyse Cloud Client Manager and Microsoft's System Center Configuration Manager(SCCM). Administration easily scales from just a few to tens of thousands of mobile thin clients. For enhanced security, optional Advanced Threat Protection in the form of Dell Endpoint Security Suite Enterprise and Dell Threat Defense offer proactive malware protection on both virtual desktops and the endpoints themselves, respectively.

**Specifications** **Latitude 3460 mobile thin client**
