

Latitude E7270 Mobile Thin Client

Secure, powerful, and portable

The high-powered Latitude E7270 mobile thin client is designed to securely deliver virtual desktops to mobile users. Equipped with a powerful quad core processor and integrated graphics engine, the mobile thin client provides an exceptional user experience with a high level of compute power for the most demanding applications. This thin client for on-the-go performance, offers a 12" display with a Full HD anti-glare display and longer battery life.

Flexibility with reliability

The Latitude E7270 mobile thin client includes a rich array of thin client features on a mobile form factor. It supports a wide variety of virtual desktop brokers including Citrix XenDesktop and VMware Horizon and can connect to a broad range of

peripherals and desktop / application virtualization environments using a fast, rich and familiar Windows 7 user experience.

Easy to Manage

The Latitude E7270 mobile thin client is easily manageable through Wyse Device Manager(WDM), Wyse Cloud Client Manager and Microsoft's System Center Configuration Manager(SCCM). Administration easily scales from just a few to tens of thousands of mobile thin clients. For enhanced security, optional Advanced Threat Protection in the form of Dell Endpoint Security Suite Enterprise and Dell Threat Defense offer proactive malware protection on both virtual desktops and the endpoints themselves, respectively.

Specifications **Latitude E7270 mobile thin client**

| | |
|-------------------------------|--|
| Operating system | Windows Embedded Standard 7P |
| CPU | Intel i5-6300u with integrated HD graphics 520 |
