

LATITUDE 5280 & 3480 MOBILE THIN CLIENTS

Security and portability for an enterprise-class mobile experience

The Latitude 5280 and 3480 mobile thin clients are designed to securely deliver virtual desktops to mobile users. The two new mobile thin clients leverage the thoughtful design and user experience of the Latitude portfolio with durable, enterprise-class chassis designed to meet the demands of today's mobile worker. They are built with a robust feature set including Intel dual core processors with integrated graphics for a rich multimedia experience. These mobile thin clients deliver great value with a 14" or 12" display and robust connectivity with plenty of ports. With a sleek, portable design, these mobile thin clients are easy to carry and let you work on-the-go.

Flexibility with reliability

The Latitude 5280 and 3480 mobile thin clients have all the thin client features you expect on a mobile thin client. Both models support a wide variety of virtual desktop brokers including Citrix XenDesktop and XenApp, VMware Horizon, and Microsoft RDS right out of the box.

Easy to manage and highly secure

The Latitude 5280 and 3480 mobile thin clients are easy to manage and highly secure through Wyse Device Manager (WDM), Wyse Management Suite and Microsoft's System Center Configuration Manager (SCCM). Administration easily scales from just a few to tens of thousands of mobile thin clients.

For enhanced security, optional Advanced Threat Protection in the form of Dell Threat Defense offer proactive malware protection.

Specifications	Latitude 3480 mobile thin client	Latitude 5280 mobile thin client
Operating system	Windows 10 IoT Enterprise	Windows 10 IoT Enterprise
CPU	Intel® Celeron 3865U (Dual Core, 1.8GHz)	Intel® Core™ i5-7300U (Dual Core, 3.5 GHz)
